

DURATEK INC.

Professional Installation of CERAMIC INSULATING COATINGS

COMMERCIAL

Avoid Costly Roof Replacement While Sealing Roof from Leaks & Reducing Radiant Heat by as much As 85%.

**The Total Solution!
An Energy Saving
Waterproof
Coating System**

INDUSTRIAL

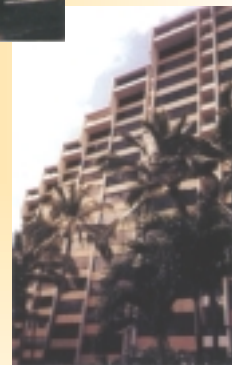

Storage Tanks
Increase Storage Capacity
Without venting

RESIDENTIAL

HOTELS & CONDOS

Cooler Interiors
Waterproof and Beautify

The most amazing heat reflective coating you have ever seen!

Even a 2,500°F Blowtorch doesn't penetrate our ceramic insulation barrier!

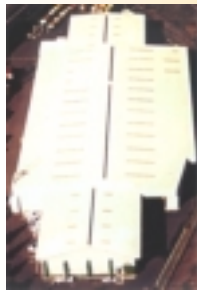

Our Ceramic Coatings are being used extensively on U.S. military facilities in Hawaii, as well as on many institutional and privately owned facilities across the Pacific and Asia.

Can be applied to Concrete Walls to waterproof, protect & reduce A/C costs

Professional Installation of
CERAMIC INSULATING COATINGS

DURATEK'S CERAMIC INSULATING COATING HAVE PROVEN TO OUTPERFORM AND OUTLAST OTHER COATING SYSTEMS IN THE HIGHER UV AREAS OF THE PACIFIC.

CAN BE APPLIED TO NEW AND EXISTING

- **STEEL**
- **CONCRETE**
- **ASPHALT**
- **WOOD**
- **STUCCO**

COMPARISON TEST

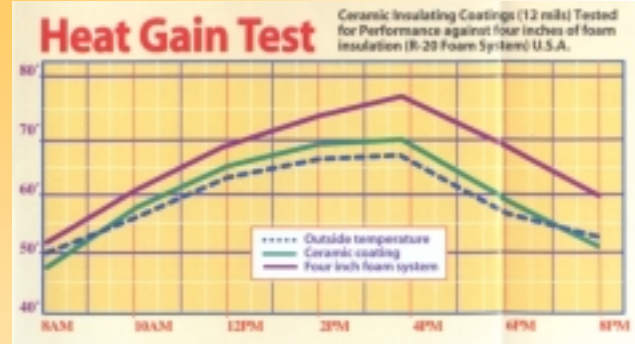

TYPE OF SURFACE	% SOLAR REFLECTANCE	
	WITHOUT CERAMIC	WITH CERAMIC
Modified Bitumen-Black	6.8	76.5
Concrete Roof-Coated White	24.0	82.9
Galvanized Steel-Factory White	29.4	78.3

"The ceramic coating systems appears to have stopped all leaks in our commercial building complex. We have had several periods of severe and heavy wind driven rains since completion and have not received any reports (from tenants) of leakage, nor have our on-going inspections revealed any problems."

—Robert L. Paris, Touchstone Prop. Mgr.

"Before using your ceramic coating, the entire building was like an oven by mid-day, and showing vacancies was uncomfortable. Now the entire building is cool all the time, having happier and more comfortable tenants as well as comfortable showings."

—Gail Lum, SenPlex Corp Prop. Mgr.

**INSULATES - SEALS & PROTECTS - PREVENTS CORROSION
 COST EFFECTIVE - EASY TO MAINTAIN**
